GRID SYSTEM

Base unit: 8px · 12-column grid · 24px gutters · Breakpoints: 640px, 768px, 1024px, 1280px

LAYOUT PATTERN

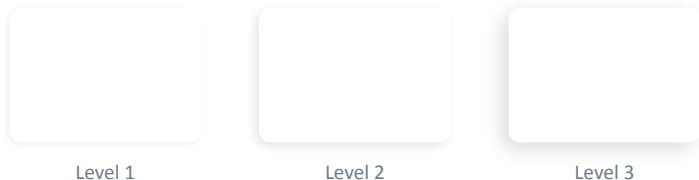

Card-based dashboard with left sidebar navigation. Progress journey bar at top. Feature cards in responsive grid (3 across desktop, stacked mobile).

Inspired by Blueprint Builder layout.

Design Principles

01

Empowering, Not Corporate

Warm, encouraging language that celebrates achievement. This speaks to managers as a trusted advisor.

02

Progress is the Product

Every screen reinforces forward momentum with progress bars, badges, and completion indicators.

03

Practical Over Theoretical

The UI breaks complexity into small steps. Show the next action clearly—no overwhelming dashboards.

04

Clarity Over Complexity

Clean navigation, simple forms, minimal friction. Accomplish something meaningful in 5 minutes.

05

Mobile-First Mindset

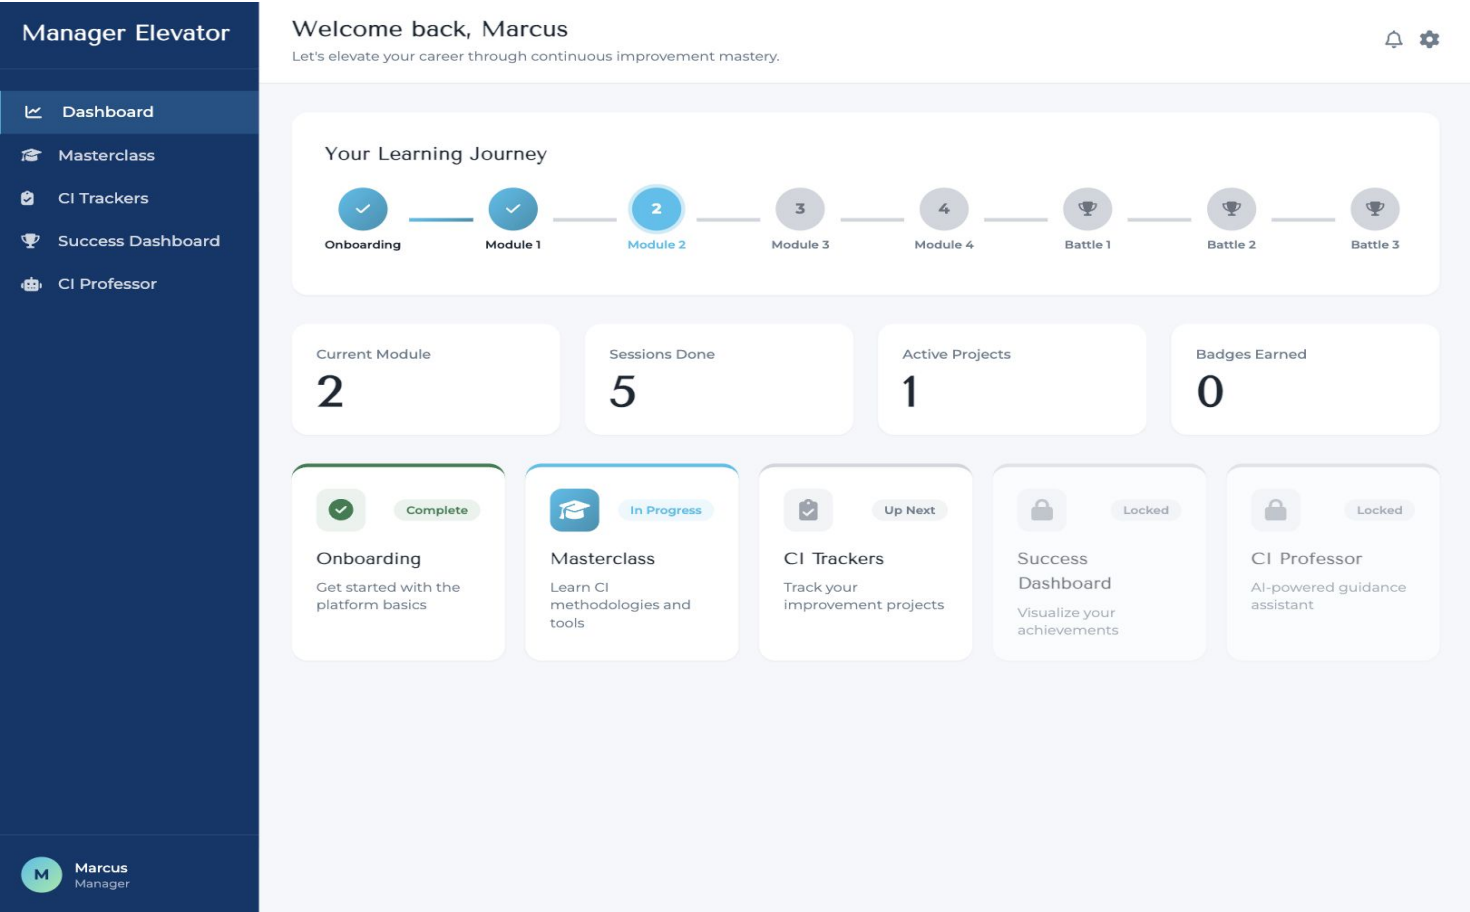

Busy managers access on the go. Generous touch targets, readable text, cards that stack beautifully.

06

Career Advancement Focus

Badges feel like real achievements, not gimmicks. The endgame is career growth and professional credibility.

Success Nuggets

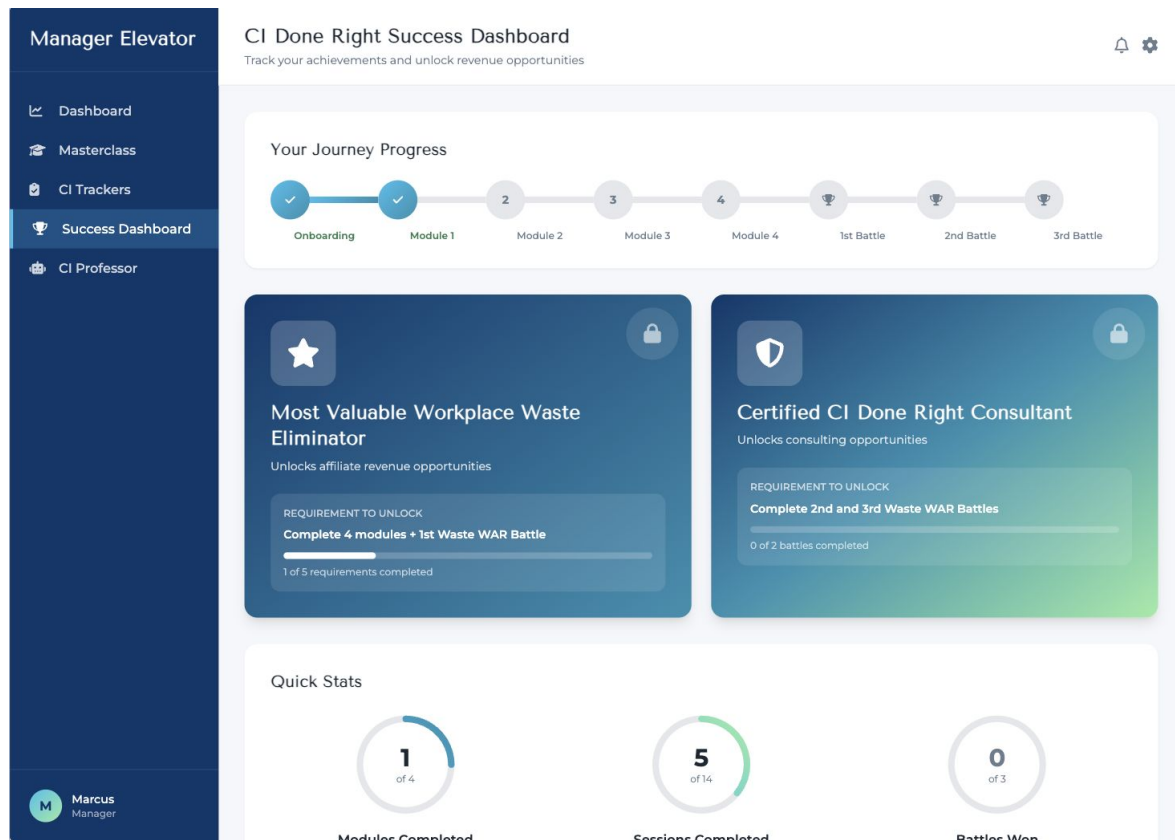

Week #	Session Name	PowerPoint Link	Date Completed	Status
Week 1	Clarify the Opportunity	Session1.pptx	Jan 13 2026	Done
Week 2	Define Success Metrics	Session2.pptx	Jan 20 2026	Done
Week 3	Map Current State	No file yet	This week	Active
Week 4	Identify Root Causes	—	—	Pending
Week 5	Design Future State	—	—	Pending

i

How It Works

Upload your PowerPoint files after each weekly session. Dana (your coach) will be notified when sessions are completed and can review your progress. Keep your team aligned and track your 14-week Waste WAR Battle journey.

Next Steps

This design system provides the visual foundation for Manager Elevator.
The next phase brings these designs to life.
